

Divyanshi Negi

+91-9599304903 | divyanshi80405@gmail.com | linkedin.com/in/divyanshi-negi | github.com/divyanshi80405

Profile Summary

Computer Science undergraduate with expertise in Full Stack Development, Software Engineering, and AI driven applications. Skilled in Java, Python, JavaScript, React.js, Node.js, REST APIs, SQL, and Data Structures & Algorithms, with experience developing scalable and user centric software systems.

Skills

Languages: Java, Python, JavaScript, TypeScript, SQL
Web & Backend: React.js, Node.js, Express.js, HTML5, CSS3, REST APIs
Databases: MySQL, MongoDB
AI/ML: Machine Learning, Generative AI, Prompt Engineering, RAG, NLP, Scikit-learn
Core CS: DSA, OOP, DBMS, Operating Systems, Computer Networks
Tools: Git, GitHub, Postman, Linux, VS Code, Pandas, NumPy, Matplotlib
Soft Skills: Problem Solving, Teamwork, Communication, Leadership, Critical Thinking

Projects

City Agent – AI-Powered Municipal Services Platform | *React.js, Node.js, Express.js* May 2025
github.com/divyanshi80405/city-agent

- Developed a full-stack municipal services platform with an AI-powered conversational interface to streamline citizen service access.
- Built RESTful APIs using Node.js and Express.js for workflow automation and backend communication.
- Designed a responsive React.js frontend, ensuring scalability, usability, and seamless user experience.

GitHub Profile Finder | *React.js, JavaScript, GitHub REST API* Feb 2025
github.com/divyanshi80405/GitHub-Profile-Finder

- Developed a React.js application for searching and visualizing GitHub user profiles, repositories, and contribution metrics.
- Integrated GitHub REST APIs and optimized asynchronous data fetching to improve application performance.
- Implemented repository filtering, sorting, and responsive UI components to enhance user experience.

Experience

Indian Institute of Technology Delhi May 2026 – Present
Student Research Intern New Delhi, India

- Supporting AI and healthcare research through literature review, experimentation, and data analysis.
- Evaluating machine learning methodologies and contributing to the validation of research outcomes.
- Collaborating with research mentors on problem formulation, technical documentation, and presentation of findings.

Hackathons & Achievements

AI Biometric Payment System | *FinFiesta Hackathon, NPCI – IIT Delhi* March 2025

- Developed an AI-powered biometric authentication prototype for secure digital payment verification.
- Contributed to machine learning based identity verification workflows and system architecture design.
- Recognized as a **Top 10 National Finalist** at NPCI FinFiesta Hackathon among participating teams across India.

Certifications

- AWS Academy Graduate – Cloud Foundations May 2026
- Accenture Technology Apprenticeship Simulation April 2024
- Oracle Java Foundations Nov 2024
- Complete Web Development Bootcamp – Udemy July 2024

Education

Sharda University, Greater Noida, India 2023 – Present
B.Tech, Computer Science Engineering CGPA: 8.6/10
Specialization: Artificial Intelligence for Internet of Things (AI for IoT)
